

HOW TO RENEW YOUR PA MEDICAL MARIJUANA CARD

Login to Your Medical Marijuana Profile

- Log onto <https://padohmp.custhelp.com/app/login> using your account information
- Review information under the 'Profile Setting' tab for accuracy and be sure to save any changes
- Select the blue "Renew My Patient Registration" button

Obtain A New Doctor's Certification

- Once your profile is updated, you will receive an email notification to see a physician for a new certification. This may be the same doctor who previously certified you, or another certified physician
- This physician must be registered with the PA Department of Health; a complete list of registered physicians may be found at medicalmarijuana.pa.gov
- Once the physician certifies you, your new card will come in the mail (however, you must still pay the annual fee for the card to activate; see steps below)
- Your new card will be issued for the day after your previous card expires

Pay For Your Card

- Payments must be made annually to retain coverage
- 30 days before the annual renewal fee is due, you will receive an email with instructions to make a \$50 payment to the state
- This payment may be lowered if you qualify for a lower fee

Visit A Dispensary

- Once you receive your renewed card in the mail, you may continue to visit Keystone Shops or any other approved dispensary in the state of PA
